

Everybody Counts

Everybody Counts is a program designed to teach children about the many types of disabilities present in our world today. Each grade level focuses on different types of disabilities.

Each year in the spring, an army of 130 volunteers help bring the Everybody Counts program to life in the classroom at St. Ignatius School, sharing hands-on activities that help students experience the challenges of living with a disability. It is designed to teach students how children with these challenges cope with them. The goal is to build understanding, inclusion, and ease with one another's differences.

Additional Links/Information

Everybody Counts also demonstrates a commitment to two of the school's core values:

Focusing on the Whole Child

This comprehensive approach provides an environment where each student's unique abilities are both embraced and challenged, building the foundation for greater self-worth and life-long happiness.

Celebrating Diversity & Embracing all God's Children:

Utilizing Christian law as our cornerstone and the Commandment "Love your neighbor as yourself," St. Ignatius School embraces diverse talents, abilities, and backgrounds. Our commitment to this Commandment begins with the inclusion of all students.
